Hello Bob, just wanted to follow up with you to see how you provided the “approval to access” the Kozak property. I thought I was pretty clear that access was conditionally approved and that USGS and the tribe would need to be accompanied by REI personnel. I was provided the date and time (Wednesday March 1 at 10:00 am) for the proposed work by both you and Kristen as well as Linda. REI arrived yesterday at 10:00 am and all the wells on Kozak property were already opened and measurements collected. REI chose not to confront Kristen about this until I had an opportunity to discuss how you had provided access approval to her – was she aware of the conditions? Additionally, REI had noticed that four (4) locks were missing from the wells that were opened prior to REI arrival.

Thank you,

David N. Larsen P.G
